

Dear Brad,

Catherine Conroy
Panduit Channel Marketing

This special edition of the Panduit Distribution Marketing Newsletter is intended to provide you with quick access to Panduit's solutions that support the safety, healthcare, and manufacturing industries in this unprecedented time of "shelter in place" due to COVID-19.

Panduit and our distribution partners are deemed essential businesses during this global crisis. Feel free to read and share Panduit's [essential business letter](#) with your customers. We are delighted to do all we can to support our communities as we overcome this challenge. Above all, we must remain optimistic and refocus the negative into a positive.

For instance, when unexpected plant shutdowns occur, safety and plant managers should capitalize on the opportunity to evaluate and improve their safety procedures by educating themselves through training and regularly communicating the steps Panduit is taking to safeguard our employees, customers, and communities. To assist in these efforts, we have compiled several informational links in this newsletter to help you overcome these challenging days and weeks.

We hope this information and training courses are useful tools for you.

If you would like further information on anything in this newsletter, please reach out to Catherine Conroy, Panduit Channel Marketing at catherine.conroy@panduit.com.
