April 15, 2020

Dear Customer,

With the ever-changing global impact of the COVID-19 outbreak (“Coronavirus”), we wanted to keep you up to date on how Atkore is handling the situation while maintaining business operations:

- Atkore continues servicing customers without interruption
- All Atkore facilities are open and operational; inventory continues to be widely available
- In accordance with guidelines from the Centers for Disease Controls and Prevention (CDC) and the World Health Organization (WHO), we are regularly cleaning and disinfecting our facilities, providing PPE, practicing social distancing and are reminding employees to follow recommended hygienic practices
- Non-essential visitors are not allowed in our facilities; however, deliveries, shipments and normal outside maintenance at all our locations will continue
- Non-essential travel by our employees is suspended; we encourage you to schedule video or phone conference calls in lieu of in-person meetings

The spread of Coronavirus, information regarding health control measures, and the global impact to businesses and the economy remain dynamic. Our leadership team is actively monitoring the situation and meeting daily to ensure we communicate new changes or announcements in response to changing circumstances.

As such, we will keep you updated regarding any future impact in our ability to serve you. And, if there are changes within your business, please let us know so that we can work together during this unprecedented time.

Please contact me with any questions you may have regarding this situation.

Regards,

A handwritten signature in cursive script that reads 'Melissa Kidd'.
