To Our Valued Customers and Rep Partners:

At Cerrowire, we believe it is our responsibility to ensure the health and safety of our stakeholders; including our employees and customers. This commitment includes continuing to support our supply chain which relies on our industry leading service levels to support your business.

Over the last couple of weeks, Marmon has taken precautionary steps in response to the developing public health impact of Coronavirus (COVID-19), including restricting “non-essential” travel for all Marmon companies. Marmon has also taken steps requiring visitors to our facilities to complete an evaluation, which includes the disclosure of travel to a Level 2 or 3 country. At Cerrowire, we have instructed our teams to evaluate travel plans scheduled to occur over the next 30 days. Our direction is to postpone or cancel these plans and find alternative means of communication.

We appreciate your understanding and will do all within our power to ensure your Cerrowire experience is not impacted. Currently, we have no plans to shut down our factories or restrict office entry for Cerrowire employees. Our suppliers have assured us that they are operating as normal at this time. Please note, this is a fluid situation and we are paying close attention to all government restrictions. Our commitment to our stakeholders is that we will proactively communicate if our situation changes. One benefit of having our plants in four (4) strategic locations around the country is the ability to flex and ensure our key customers can continue to run their businesses as the situation allows.

Thank you for being a loyal customer and business partner. It is our intent to remain transparent and continue to provide updates as concerns are validated.

Our hearts go out to all who have been affected by the outbreak of coronavirus (COVID-19).

Thank you,

A handwritten signature in black ink that reads "Stewart Smallwood". The signature is fluid and cursive.
